

Participants needed for Summer 2016 Dust Mat Study

*Please help us with our study of dust entering homes in Trail and Rivervale! The first **50 people** to sign up win a **FREE family pool pass** thanks to the City of Trail.*

It's easy! We don't want you to change your routines or do anything special... We'll bring you a dust mat to place just inside your main entrance, and two dustfall jars. You just need to leave them in place and **carry on as usual**. We would ask that you not clean the dust mat for the one-month duration of the study. We'd like to ask you a few questions to **help us learn** how we can keep reducing people's exposure to lead in house dust. **That's it!**

***Why a study?** We first studied dust in homes in the 1990s. Now, with air lead levels so much lower, we want to **update our knowledge**.*

For more information or to sign up, please contact the Trail Area Health & Environment Program Office at (250) 368-3256, programs@thep.ca or drop by 1319 Bay Avenue.
